

# About Jiangsu University

Jiangsu University (JSU) was founded in 1902 as a part of Sanjiang Normal University. It was retitled as Jiangsu University by integrating Jiangsu University of Science and Technology, Zhenjiang Medical College and Zhenjiang Teachers' College with the approval of the Ministry of Education of China in August, 2001. The university's undergraduate teaching was graded excellent by the Ministry of Education in 2004. It has developed to be a national comprehensive key university. According to the Evaluations of China's Universities in 2015 by China Academy of Management Science, JSU is ranked 55. It is committed to cultivating talents with 4C (Confidence, Communication, Cooperation and Creation). Now the university is launching the new orientation of schooling for high-level, research-oriented university with strength of engineering and strategy of internationalization.

JSU offers 88 undergraduate programs, 170 master programs, and 42 PhD programs in 10 academic fields: Engineering, Science, Management, Economics, Medicine, Law, Education, Literature and History. The university has 13 post-doctoral research stations. Distinguished among its peers for its academic rigor, the 24 schools are competing and collaborating with each other for a high-level, research-oriented university with distinctive features and internationalization strategy.

JSU has 5,763 staff members (including those of Affiliated Hospital). 2,475 are faculty members, including 450 professors. 54% of them have got Ph.D degrees and over 24% have experience of overseas study. The current total enrollment of full-time students amounts to over 33,000, including 10,000 postgraduates, 842 international students from 74 countries. Jingjiang College of Jiangsu University has an enrollment of about 10000 full-time students.

JSU has been promoting high-level research. In the recent 5 years, the total scientific research fund amounts to 25 billion RMB, sponsored by the governments and enterprises. The authorized patents in 2014 is 480, ranked 12 among China's universities. Four disciplines have been ranked as top 1% in ESI, such as Engineering, Clinical Medicine, Materials Science and Chemistry. Drawing on the big varieties of programs and multi-disciplinary strengths, we operate an array of research institutes and centers serving as both the academic think tanks and technological innovation source at the national and regional levels.

JSU gives priorities to the internationalization of the schooling, encouraging faculty members and students to go abroad for further studies, inviting more global talents to join us for mutual benefits, promoting international research collaboration as well as recruiting more overseas students.

JSU has signed institutional cooperation agreements with 87 universities in 30 countries and regions by June 2015. The Confucius Institute co-built by JSU and Graz University (Austria) has been operating smoothly since October 2010, followed by the opening of the collaborative Chinese-German Language and Culture Center.
