---

## Welcome!

---

2024-2025  
Student Enrolment Guide

# Your way to success

# About the University

The University of Banja Luka, established on 7 November 1975, is the leading higher education and scientific institution in the Republic of Srpska and the second largest university in Bosnia and Herzegovina.

The University achieves European standards and contributes to the overall improvement of knowledge, and through science, research, internationalization and innovation, improves the teaching process and stimulates the economic growth of the society.

The University educates the future workforce, internationally competent in all scientific fields, capable to meet the demands of modern regional economy with expertise and quality.

---

- **16 faculties**

- **1 academy**

- **1 institute**

---

- **Courses taught in accordance with the Bologna Process principles**

- **Courses taught in English**

- **Free studies and accommodation in dormitories**

---

**Study programmes in the academic year 2024-2025**

- **66 first-cycle study programmes**

- **67 second-cycle study programmes**

- **14 third-cycle study programmes**

## The first cycle of studies

---

- **62 study programmes 180 and 240 ECTS**

- **3 integrated study programmes 300 ECTS**

- **1 joint study programme 240 ECTS**

## The second cycle of studies

---

- **65 study programmes 60 and 120 ECTS**

- **1 joint study programme 60 ECTS**

- **1 study programme conducted only in English 60 ECTS**

## The third cycle of studies

---

- **3 study programmes 180 ECTS**

- **1 joint study programme 180 ECTS**

# Calendar of activities

## Enrolment 2024-2025

### The first enrolment round

- Announcement of the invitation for applications for student admission 12 June 2024
- Admission of documents 24–28 June 2024
- Entrance exam 1 July 2024
- Enrolment of eligible candidates 8–12 July 2024

### The second enrolment round

- Announcement of the invitation for applications for student admission 14 August 2024
- Admission of documents 26–30 August 2024
- Entrance exam 2 September 2024
- Enrolment 9–13 September 2024

# Who can enrol in the studies?

Everyone who has completed a four-year secondary school in the Republic of Srpska and Bosnia and Herzegovina or a corresponding secondary school abroad is entitled to enrol in the University of Banja Luka, i.e. in one of its 16 faculties and the Academy of Arts.

For those who have completed school abroad, the competent authority conducts the procedure of recognizing the public document on the level of education obtained. As to prospective students coming from Serbia, they enrol under the same conditions as candidates from the Republic of Srpska and Bosnia and Herzegovina.

## Documents required for the application and enrolment

---

1. birth certificate

---

2. citizenship certificate that is not older than 6 months

---

3. original school leaving certificates and an original diploma of passing the matriculation, i.e. final exam (or a certified copy if candidates are applying for two or more study programmes)

---

4. proof of payment of the fee for taking the entrance exam or aptitude test

---

5. medical certificate

– when **applying** to the University of Banja Luka, for the Faculty of Security Sciences and the Faculty of Physical Education and Sports candidates are to submit a medical certificate issued by a registered health institution.

– as for the Faculty of Security Sciences of the University of Banja Luka, in addition to a medical certificate, a certificate that no criminal proceedings are in progress against the candidate needs to be submitted.

– when **enrolling** in the University of Banja Luka, candidates are to submit a medical certificate to all members except to the Faculty of Security Sciences and the Faculty of Physical Education and Sports.

The candidate submits the application along with other necessary documentation to the Student Administration Office at the respective faculty / Academy of Arts where the study programme to which the candidate is applying is conducted.

## E-applications

Candidates who decide to study at the University of Banja Luka as of the academic year 2024-2025 have the possibility to submit documents for taking the entrance exam electronically via [www.upis.unibl.org](http://www.upis.unibl.org).

---

# Entrance exam

Entrance exams or aptitude tests are compulsory for enrolment in the first year of the first cycle of studies.

Candidates who have achieved one of the first three places in state, RS or regional competitions during their secondary school education in subjects relevant to the study programme can be enrolled without taking the entrance exam, about which they can be informed at the respective faculty or the Academy of Arts. These candidates will be awarded the maximum number of points of the entrance exam and the aptitude test respectively.

Candidates are required to bring an identification document - a valid ID card or passport - to the entrance exam, i.e. to the aptitude test.

Candidates that are persons with disabilities can take the entrance exam in a manner adapted to their needs and in accordance with the objective possibilities of the faculty or the Academy of Arts. When applying for the admission to the faculty or the Academy of Arts, these candidates must submit a written proposal on how they are going to take the entrance exam.

# Enrolment

A candidate can achieve a maximum of 100 points for enrolment in the corresponding study programme:

- 
1. based on general success in previous education (50 points)
  2. based on the results achieved in entrance exams and aptitude tests respectively (50 points)
- 

General success in secondary school is calculated by rounding to two decimal places. A candidate can enrol in the study programme if he or she achieves at least 15 points in the entrance exam and if he or she is within the number approved for student enrolment on the candidates' ranking list.

# Studies according to Bologna and duration of studies

In the academic year 2007-2008, the University of Banja Luka started implementing the Bologna Process in all study programmes. A three-cycle study system was adopted along with the ECTS system and total study load – **European Credit Transfer System** (ECTS).

In order for the knowledge and skills gained by our students to be comparable across the European Education Area, teaching takes place through one-semester courses and continuous knowledge checks are conducted during the semester. The Bologna system also allows students to spend one or two semesters during their studies at one of the European universities through mobility programmes.

Three-year and four-year studies of the first cycle valued at 180 ECTS points, i.e. 240 ECTS points are conducted at the University. The study programmes are divided into academic years and semesters. Thus, in accordance with the Bologna Process principles, a student can achieve 60 ECTS per year, i.e. 30 ECTS points per semester.

# Tuition fees

The status of a student is gained by enrolling in the relevant study programme, and in accordance with the results achieved in the entrance exam.

The amount of the tuition fee depends on the student's status. According to the Rules for Studying, upon enrolment, a student can gain the status of full-time and part-time student. There are three subcategories of full-time students:

- **Students whose studies are financed from the budget**
- **Students who self-finance their education and**
- **Foreign students**

The amount of tuition fee for students who self-finance their study costs, part-time students and foreign students in the first, second and third cycle of studies is defined by the decision of the Steering Board.

# Student accommodation

Students of the University of Banja Luka also have 1,250 beds available for accommodation in the four pavilions of the "Nikola Tesla" Student Centre.

---

**The accommodation capacities:**

- **Pavilion 1 (320 beds)**
- **Pavilion 2 (320 beds)**
- **Pavilion 3 (290 beds)**
- **Pavilion 4 (320 beds)**

Pavilions 1 and 2 are placed in the so-called old campus, in Majke Jugovića 1, while the pavilions 3 and 4 are located in the University Campus, Bulevar vojvode Petra Bojovića 1A. As part of the student dormitory, there are also student cafeterias, where students have three meals a day at favourable prices. In addition to accommodation and food, students have at their disposal the reading room, the Internet room, the TV room and the laundry room, as well as other contents to facilitate student life.

The competition listing all the accommodation details in the dormitory is announced in September.

For more information, visit: [www.scnikolatesla.com](http://www.scnikolatesla.com).

E-mail: [scnikolatesla@gmail.com](mailto:scnikolatesla@gmail.com).

# University Support Centre for Students with Disabilities

The University Support Centre for Students with Disabilities is a coordinating body, role of which is to provide support services that would enable students with disabilities to have equal access to the teaching process and other activities through continuous communication with the respective members.

Through its activities, it provides students with all information about possible types of support, rights they can exercise, exchange opportunities for students with disabilities, scholarships, student internships, accessibility etc. The Centre is architecturally and digitally adapted to the needs of students.

The University Support Centre for Students with Disabilities was established in 2006, and became an integral part of the University of Banja Luka a year later.

The Institute of Genetic Resources is a scientific research institute at the University.

Since 2012, after declaring the University campus a protected area, the Institute has been performing two main activities. The first activity is the maintenance of the Republic of Srpska genetic resource bank and coordination of the programmes for conservation, collection, characterisation and evaluation of genetic resources and the second is the management of the protected area and maintenance of the park, botanical garden and other green areas in the University Campus on an area of 28 hectares.

Since 2014, the Institute has been undertaking teaching in collaboration with the Faculty of Agriculture and the Faculty of Natural Sciences and Mathematics within the second-cycle Conservation and Sustainable Use of Genetic Resources Combined Study Programme.

# Banja Luka

# Banja Luka

Banja Luka is the university, administrative, economic, cultural and political centre of the Republic of Srpska.

Banja Luka is a modern, European city, prominent in the region, with a population of 180,053. It provides a safe, humane and urban environment, with plentiful cultural, sporting and other events, in which entrepreneurship, knowledge, ability and results are recognized and valued.

The city was built on both sides of the Vrbas River, at the place where this wild, mountain river loses the features of a mountain river from its canyons, straits and gorges and enters the lowland through which it makes its way to the mouth of the Sava River. With its abundant green surfaces, parks and tree-lined streets, it is rightly called the “green city”.
