Climate Change and Viticulture: A Multidisciplinary Perspective

26-27thNovember 2026
University of Udine, Sala dei Cereali and online
via delle Scienze 206, first floor, 33 100 UDINE

Thursday, 26thNovember

9:00 Climate change impacts on European viticulture
Helder José Chaves Fraga, University of Trás-os-Montes and Alto Douro, Portugal (online)

10:00 Coffee break

10:30 The role of agriculture in climate mitigation: state of the art and future perspectives
Bruno Basso, Michigan State University, U.S.A. (in presence and online)

11:30 Kaolin and Particle Film Technologies in Viticulture: From Light Reflectance and Grapevine Physiology to Vineyard Practice
Tommaso Frioni, Università Cattolica del Sacro Cuore di Piacenza, Italy (in presence and online)

14:30 –18:00 Field visit

Friday 27hNovember

9:00 Vineyard Irrigation under Climate Change: Vine Characteristics to Consider Depending on the Season
Paolo Sivilotti, University of Udine; Italy (in presence and online)

10:00 Coffee break

10:30 Exploring Contemporary Viticulture: Experimental Insights into Vineyard Management and Grape Ripening
Jan Reščič, University of Nova Gorica, Slovenia (in presence and online)

11:30 Climate change and the evolving geography of viticulture in Bosnia and Herzegovina: challenges and opportunities
Miljan Cvetković, University of Banja Luka Faculty of Agriculture (online)

Organizer: University of Udine in collaboration with University of Nova Gorica and University of Banja Luka
Contact person: Prof. Paolo Sivilotti and dr Mirco Sodini

EUROPEAN UNIVERSITY FOR CROSS-BORDER KNOWLEDGE SHARING

ACROSS – Cross-border learning opportunity:

The Across seminar is organised by the University of Udine in collaboration with the two Across partners University of Nova Gorica and University of Banja Luka. The seminar supports cross-border knowledge exchange within the ACROSS European University Alliance and is part of the ACROSS Learning Offer, available through the **ACROSS eCampus – Events section**. It offers students, doctoral candidates and early-stage researchers from across the Alliance the opportunity to attend the lectures online, fostering academic exchange and collaboration between partner universities.

Target audience: The seminar is particularly recommended for Bachelor's and Master's students in Viticulture and Enology, Agricultural Sciences, Horticulture and related fields., as well as Doctoral candidates and early-stage researchers, from ACROSS partner universities and the wider academic community.

Academic staff and researchers working in viticulture, enology, plant physiology, agronomy, climate science and sustainable agriculture and Members of the wider academic community interested in climate change and the future of European viticulture are welcomed on online sessions.

Language: The seminar will be delivered in English

Modality: The seminar is organised in a hybrid format. Lectures will be available both on-site at the University of Udine and online, allowing participants from across the ACROSS Alliance to join remotely. Please note that online participation is available for the lectures only. The field visit is reserved for participants attending in person.

Registration for the online sessions is available through the eCampus form using the following link:
https://ecampus.across-alliance.eu/climate-change-and-viticulture-a-multidisciplinary-perspective/

Partecipation online

To follow the sessions of both days online please use this Microsoft Teams

EUROPEAN CROSS-BORDER UNIVERSITY

Co-funded by the European Union

Purpose and academic relevance

The seminar forms part of the activities of the ACROSS European University for Cross-Border Knowledge Sharing (Project 101177485 – ERASMUS-EDU-2024-EUR-UNIV), contributing to cross-border academic cooperation, knowledge exchange and engagement among students, doctoral candidates, academic staff and researchers.
A certificate of participation will be issued by the University of Udine upon request. It will document the participant's attendance at the seminar Climate Change and Viticulture: A Multidisciplinary Perspective, specifying the sessions and activities attended, the mode of participation (on-site or online) and the corresponding certified workload in hours.

The seminar combines lectures delivered in a hybrid format (on-site and online) with an on-site field visit. Only activities attended by the participant will be included in the certified workload.

The certificate may be submitted by participants, including Bachelor's and Master's students, doctoral candidates, researchers and academic staff, as supporting documentation for the registration or recognition of the activity within their respective academic programmes, training pathways or professional development records, subject to the regulations and approval procedures of their home institution.

Doctoral candidates may submit the certificate as supporting documentation for the possible registration of the activity as an external or free-choice training activity in their PhD Notebook, subject to the procedures and approval applicable to their doctoral programme.

The certificate attests participation and workload only. It does not in itself constitute the award or recognition of ECTS/credits. Any recognition of the activity or allocation of credits remains the responsibility of the participant's home university and is subject to its applicable academic regulations and approval procedures.
